

WELLPOINT SERIES

DISPONIBILE VERSIONE ELETTROPOMPA
ELECTRIC PUMP VERSION AVAILABLE
VERSION POMPE ÉLECTRIQUE DISPONIBLE

Motopompe vuotoassistite realizzate su telaio con ruote e serbatoio incorporato, piedini di stazionamento, avviamento elettrico con batteria e centralina di protezione motore. Ideale per aspirazione da impianto wellpoint. L'innescamento della pompa è automatico grazie alla presenza di un depressore volumetrico. Il sistema garantisce continuità di funzionamento anche in presenza di considerevoli quantità di aria senza che la pompa si disinnesci. Il pompaggio di fluidi più abrasivi con elevato passaggio di corpi solidi è garantito dalla robustezza del sistema idraulico e della esclusiva girante, di tipo con pale aperte e doppia curvatura.

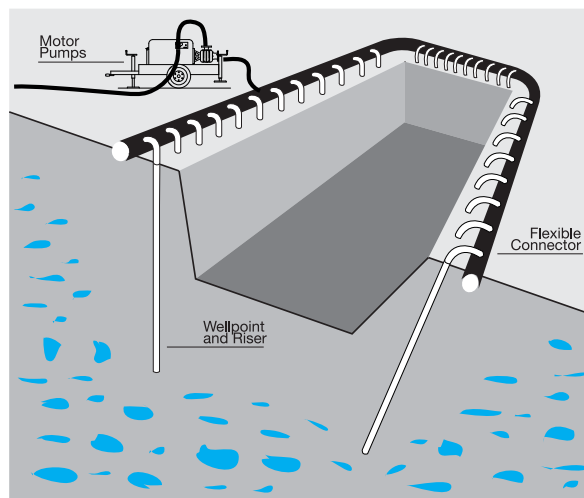

Vacuum-assisted motor pumps built on a frame with wheels and built-in tank, parking jacks, electric start with battery and motor protection control unit. Ideal for aspiration from wellpoint systems. The priming of the pump is automatic thanks to the presence of a volumetric depressor. The system guarantees continuity of operation even in the presence of considerable quantities of air without the pump switching off. The pumping of more abrasive fluids with a high passage of solid parts is guaranteed by the robustness of the hydraulic system and the exclusive impeller, of the type with open blades and double curvature.
